Description:

Urban plot of 185 m² with a typical Mallorcan house built in sandstone, which conserves all the character and charm of the traditional architecture. The house requires a comprehensive reform, as it currently only has the main and rear façade, offering a blank canvas to design the house of your dreams.

The main façade is listed, preserving its historical and aesthetic value, adding an authentic and unique touch to the project. In addition, the plot has a practical rear access from a private street, which facilitates the entrance and exit to the property.

Located in a quiet area of Muro, this plot is perfect for those looking to create a personalised home in a traditional Mallorcan style - an investment with a lot of potential to combine history and modernity!
